

Circumnutation Tracker Terms of Use

1. *Circumnutation Tracker* is provided as freeware under the following terms and conditions:
2. The software may not be transferred or sublicensed to any third part, in whole, in part, or in any form.
3. The recipient shall notify the developer for any changes, modifications or improvements in the software.
4. Department of Biophysics UMCS and the developer shall not be liable for general, incidental or consequential damages that may arise out of the use of the software such as loss of data, failure of the program to operate, data being rendered inaccurate, or any related problems.
5. For oral or written publications of results using the software, the recipient shall refer to the Department of Biophysics UMCS as a developer and cite the following reference:
